# 1981 Census Data

## By Provincial Electoral Districts

This report presents data from the 1981 Census for each of the Provincial Electoral Districts in Ontario. It has been prepared by the Statistical Services Branch of the Ministry of Treasury and Economics, in cooperation with the Ontario Electoral Boundaries Commission and the Office of the Chief Election Officer.

The data were produced and reviewed by the Census Operations Division of Statistics Canada, working to geographic specifications supplied by the Statistical Services Branch. Because the boundaries of the electoral districts do not, in all cases, follow the boundaries used in the census, an estimation procedure had to be applied to generate some of the data. While the loss of accuracy resulting from this estimation procedure is minimal, users should be aware that data in this publication are not always consistent with other census data supplied by Statistics Canada.

Further data from the 1981 Census on the basis of Provincial Electoral Districts will become available early in 1984, and will be published in a subsequent document to this publication. Enquiries should be addressed to Jim O'Brien, Manager of Data Integration and Dissemination, at 965-9951.

## PREFACE

This report presents selected data from the 1981 Census for each of the Provincial Electoral Districts in Ontario. It has been produced by the Statistical Services Branch of the Ministry of Treasury and Economics in response to requests from the Ontario Electoral Boundaries Commission and the Office of the Chief Election Officer.

The data were produced and rounded by the Census Operations Division of Statistics Canada, working to geographic specifications supplied by the Statistical Services Branch. Because the boundaries of the electoral districts do not, in all cases, follow the boundaries used in the census, an estimation procedure had to be applied to generate some of the data. While the loss of accuracy resulting from this estimation procedure is minimal, users should be aware that data in this publication are not fully consistent with other census data supplied by Statistics Canada.

Further data from the 1981 Census on the basis of Provincial Electoral Districts will become available early in 1984, and will be published in a companion document to this publication. Enquiries should be addressed to Jan DePoe, Manager of Data Integration and Dissemination, at 965-0955.

## NOTES

The data in this publication were produced by Statistics Canada from the 1981 Census, working to geographic specifications supplied by the Statistical Services Branch. All data are based on census coverage of 100% of the population, except for the data on ethnic origin, which are based on coverage of 20% of the population. Statistics Canada routinely rounds Census data to the nearest multiple of 5 in order to protect against disclosure of details relating to individuals. Further details on 1981 Census definitions can be found in the 1981 Census Dictionary published by Statistics Canada.

### POPULATION

**Total Population** refers to the total number of people normally resident in each P.E.D. on census day: June 3, 1981. The difference between **Total Population** and population in **Private Households** is accounted for by persons living in collective dwellings (such as hospitals, homes for the aged, jails, hostels and convents) and persons living outside Canada.

**Family members** are members of census families (see definition below under **FAMILIES**). All individuals who are not members of census families, including people related to members of a census family and living with them in the same dwelling, are shown as **Non Family Persons**.

### AGE AND SEX

Breakdowns reflect the age structure of the population on June 3, 1981.

### MARITAL STATUS

This is shown for the population 15 years of age and over only. **Single** means never married. Separated persons who are not divorced are shown as **Married**. **Married** includes common law couples.

### MOTHER TONGUE

This refers to the first language learned in childhood and still understood. Respondents were asked to specify their mother tongues; the grouping of responses into categories was done by Statistics Canada. The mother tongues shown for each P.E.D. are those which comprise 1 percent or more of the P.E.D. population; all others are shown as 'Other'.

### ETHNIC ORIGIN

This refers to the ethnic or cultural group to which census respondents or their ancestors belonged on first coming to North America. Ethnic origins were specified by respondents; the grouping of responses into categories was done by Statistics Canada. Respondents specifying multiple ethnic origins are shown under **Other**.

Data are shown separately for the eight largest ethnic origin categories in each P.E.D. All other categories are shown under **Other**. **Native People** includes: **Eskimos, Inuit, Metis, and Indians**. **N.O.S.** stands for not otherwise specified.

## DWELLINGS

**Total dwellings** includes all private dwellings in which one or more persons are permanently residing. Seasonal dwellings, collective dwellings and unoccupied dwellings are excluded. Dwellings which can only be entered through the living quarters of another dwelling (e.g. flats) are not considered as separate dwellings.

**Single Detached** includes mobile homes and other moveable dwellings.

**Single attached** includes semi detached and row housing and dwellings attached to non residential buildings, but not any dwellings either above or below one another.

**Apartment** includes two dwellings one above the other and attached to other dwellings.

**Duplex** means each of two dwellings, one above the other, not attached to any other building.

## PRIVATE HOUSEHOLDS

A **Private Household** is a person or group of persons who occupy a private dwelling and do not have a usual place of residence elsewhere in Canada. The number of private households, therefore, equals the number of occupied private dwellings. Households are categorized by the number of persons in the household and by the number of census families (as defined below) in the household.

## FAMILIES

Census families are defined as:

- husbands and wives living together, including common law couples, together with any never-married children they may have living with them, regardless of age
- lone parents of any marital status with one or more children who have never married, regardless of age, living in the same dwelling.
